STG - (A) United States patent

AB - A security apparatus. A service is supplied to a user while
maintaining the security of the service. A person discrimination
section discriminates the user to be supplied the service. A user
situation decision section decides whether the user is under a
situation to use the service. An infringement situation decision
section detects whether a non-user intrudes into a use area of the
service in order to decide whether the security of the service is
infringed. A service control section supplies the service to the user
in case the person discrimination section discriminates the user, and
controls a supply of the service if the use situation decision section
decides the user is not under the situation to use the service or the
infringement situation decision section decides that the security of
the service is infringed.
